

TECHNICAL DATA SHEET

SODIUM HYPOCHLORITE (12,5% CL) NL-REG-13732

Product code: MS16188

Date of issue: 06/03/2023

Replaces: 10/08/2021

FORMULA : NaClO

(Cas : 7681-52-9 / EINECS : 231-668-3)

Sodium hypochlorite solution

Remarks:

- The minimum content of active chlorine is guaranteed at delivery.
- The activity decreases under the influence of time, temperature and exposure to light.
- For the Netherlands this is a biocide under authorization number SODIUMHYPOCHLORITE NL-REG-13732.

APPEARANCE

A yellowish/ greenish coloured liquid with a typical smell.

COMPOSITION

Active chlorine (Cl₂) : min. 150 g/l

PHYSICAL PROPERTIES

Density (20°C) : min. 1,20 kg/l

CHEMICAL ANALYSIS

Sodium hydroxide (NaOH) : max. 12 g/l
 Sodium carbonate (Na₂CO₃) : max. 16 g/l
 Iron (Fe) : max. 2 mg/kg

PACKING

Can be obtained in bulk, IBC's, drums and cans. Other packaging is available on request.

SAFETY REGULATION

The safety data sheet is available on request.
