

## SAFETY DATA SHEET

## Technical Safety Information Sheet on a voluntary basis (TSIS) according to EC 1907/2006

Date of issue: 16/12/2016		Date of revision: 16/12/2016	
1.	Product- and distributor:	Fabric made of micro-filaments: Trade name : EVOLON-CR	
	Company :	<b>Interlabshop BV</b> Lage Brink 23 7317BD,Apeldoorn The Netherlands	
	Telephone :	+31(0)55-5215016	
	Telefax :	:	
	e-Mail address :	labshop@labshop.nl	
	Web-Shop :	www.labshop.nl	
	:	:	
2.	Possible hazards	No hazardous product under normal conditions.	
	Special hazard reference	Accidental thermal decomposition or melting state may cause hazards	
3.	Composition / information on ingredients		
	This document provides Material Safety Information (TSIS) for nonwovens on a voluntary basis. The TSIS is a means of forwarding essential hazard information (including information on transport, handling, storage and emergency actions) from the supplier of a nonwoven product to the recipient of this product. As nonwovens are generally not hazardous, TSIS is not legally requested but must be considered as information. It is based on the EC recommendation for MSDS (EC 1907/2006).		
	<i>The information contained in this Material Safety Information Sheet has been compiled to the best of our knowledge upon the explicit request of the customer. Therefore, the manufacturer does not assume any liability with respect to the correctness and/or completeness of the information provided by this Material Safety Information Sheet. The customer in particular shall not be released from his duty to check all safety-relevant properties of the delivered nonwovens, and to comply with the local official regulations.</i>		
	<b>Chemical nature (product)</b>		
	Description :	Nonwovens made of Polyethylene Terephthalate (PET) and Polyamide being hydro entangled	
	May contain :	Polyethylene Terephthalate (PET) and Polyamide	
	Further information :	Hydrophilic and antistatic substances	
4.	First-aid measures		
	General advice :	Under normal condition ...	
	Inhalation :	no specific measures to be taken	
	Skin contact :	no specific measures to be taken	
	Eye contact :	no specific measures to be taken	
	Ingestion :	no specific measures to be taken	
	Information for the doctor :	/	
5.	Fire fighting measures		
	Suitable extinguishing means :	Pulverized water / Foam / Carbon dioxide / Dry powder	
	Unsuitable extinguishing means :	NA	
	Exposure hazards :	Burning may release toxic combustion gases: Carbon oxide, Carbon dioxide, gas generated from the decomposition of Polyamide and Polyethylene Terephthalate (PET).	
	Protective equipment for fire fighters :	Use full protective clothing against chemicals and self-contained breathing apparatus.	
	Further information :	For flammable and toxic fumes as well as skin contact with molten materials see § 10	

## Technical Safety Information Sheet on a voluntary basis (TSIS) according to EC 1907/2006

<b>6. Accidental release measures</b> Personal precautions : Environmental precautions : Methods for cleaning : Further information :	Not applicable
<b>7. Handling and storage</b> Handling : Protection against fire and explosion :  Storage :	Normal requirements  Vertical storage in an appropriate manner in order to avoid the rolls of Nonwovens could start rolling (risk of crushing the fabric) Humidity protection Protection against direct sunrays
<b>8. Expose controls and personal protection</b> Technical protective measure : Exposure control limits : <b>Personal protective equipment</b> Respiratory protection : Hand protection : Eye protection : Skin protection : <b>General safety and hygiene measures</b> Measures :	No specific measures
<b>9. Physical and chemical properties</b> Appearance : Substrate formed by Polyamide and Polyethylene Terephthalate (PET) filaments of solid nonwoven Colour : white or according to customers specifications Odour : Not applicable <b>Changes in physical state</b> Boiling point/Boiling range (°C) : Not applicable Melting point (°C) : 220°C Freezing temperature (°C) : Flash point (°C) : Not applicable Ignition temperature (°C) : > 400°C Auto ignition : Explosion hazard : Not applicable Explosion limits (Vol.-%) : Not applicable Vapour pressure (mbar) : Not applicable Density (g/cm <sup>3</sup> ) : 180 to 250Kg /m <sup>3</sup> Bulk density (kg/m <sup>3</sup> ) : Not applicable Solubility in water : Not applicable Solubility in other solvents : partially in an acid medium pH-value : Not applicable Viscosity : Additional information :	
<b>10. Stability and reactivity</b> Conditions to avoid :  Substances to avoid : Hazardous decomposition products :  Additional information :	Under thermal decomposition flammable and toxic fumes may be generated.  Above 300°C toxic and flammable gases like carbon monoxide can be released. The generation of decomposition and oxidation products is subject to fire conditions. Non burned residues and water contaminated after fire fighting should be disposed of in compliance with official regulations. Molten material should not be contact with skin as it may adhere and cause burns.

## Technical Safety Information Sheet on a voluntary basis (TSIS) according to EC 1907/2006

<b>11. Toxicological information</b>	
Acute toxicity	: /
Specific symptoms in animal experiments:	/
Irritation effects	: /
Sensitization	: /
Subacute to chronic toxicity	: /
Carcinogenicity, mutagenicity, teratogenicity	: /
Information from practical experience	: /
Additional information	: No toxic reaction known under normal conditions.
Note	: Under decomposition conditions; toxic fumes and contaminated water, see § 10.
<b>12. Ecological information</b>	
Biodegradability	:
Ecotoxicity	:
Further ecological information	: For transportation, storage, normal use, no toxicological effect is known. Possible water pollution, if components are washed out.
<b>13. Disposal considerations</b>	
Product	: Nonwovens can be disposed of as non-hazardous solid waste, under compliance with the local regulations. The possibility of recycling has to be checked
Disposal code number	:
AVV-Code	: 040222
<b>14. Transport information</b>	
Not classified as dangerous in the terms of transport regulations.	
<b>15. Regulatory information</b>	
Labelling according to EC-regulation	: The product / is not required to be labelled according to EC regulations.
National directives	:
<b>16. Other information</b>	
The information contained herein is based on the present state of knowledge and does not therefore guarantee certain properties. The technical safety information sheet only describes the products in aspect to their safety requirements. Recipients of our products must take on responsibility for observing existing laws and regulations.
